SEDUCING EXTERIORS

The textured finish reproduces the traditional three-dimensional milling, bringing the fascination of the natural material to the outdoors and to indoor spaces that require anti-slip features, such as spas and areas subject to humidity. The textured finish contributes to the planning of continuous indoor and outdoor spaces and can also be used on walls with a decorative potential.

DES EXTÉRIEURS SÉDUISANTS

La finition structurée reproduit l'usinage typique du fraisage tridimensionnel du marbre, en proposant le charme de la matière de référence jusque dans les extérieurs et les espaces intérieurs qui exigent des caractéristiques antidérapantes, comme les spa et les zones humides. La surface structurée contribue à la conception d'espaces où l'intérieur et l'extérieur s'intègrent dans une parfaite continuité visuelle et matérielle, et peut être également utilisée comme revêtement de décoration.

VERFÜHRERISCHE AUßENBEREICHE

Die strukturierte Oberfläche ahmt die typische dreidimensionale Fräsbearbeitung des Marmors nach und trägt die Faszination des Vorlagematerials auch in Innen- und Außenbereiche, die rutschfeste Eigenschaften erfordern, wie Spa-Ambiente und Feuchtzonen. Die strukturierte Oberfläche trägt zur Gestaltung von Räumen bei, in denen Innen- und Außenbereiche eine totale optische und stoffliche Kontinuität bilden, zudem kann sie auch als dekorativer Wandbelag verwendet werden.

SEDUCTORES EXTERIORES

El acabado estructurado reproduce la típica elaboración del fresado tridimensional del mármol, transportando el encanto del material de referencia incluso a los exteriores y a los ambientes interiores que requieren características antideslizamiento, como los spa y las zonas sometidas a humedad. La superficie estructurada contribuye a la proyectación de espacios en los que indoor y outdoor se integran en total armonía visual y material y puede ser empleada también como revestimiento con valencia decorativa.

ОБАЯТЕЛЬНЫЕ НАРУЖНЫЕ ПРОСТРАНСТВА

Структурная поверхность воспроизводит характерную рельефную фактуру подвергнутого фрезеровке мрамора и позволяет перенести очарование этого природного материала даже на улицу или в интерьеры, где от покрытий требуется повышенное сопротивление скольжению, такие как СПА-залы или любые другие влажные помещения. Такая поверхность дает также возможность создать цельные дизайнерские проекты, в которых наружные пространства являются естественным продолжением внутренних. Кроме того, структурные плитки можно укладывать на стены для создания стильного декоративного эффекта.
